

Science Buzz Cafe # 577

Monday 6 PM • September 28th, 2026
The HopMonk 'Abbey'

Host, Daniel Osmer (daniel@economicbuzzcafe.com)

6 PM • Come Early for Food & Drink • RSVP \$7 • DOOR \$10

How Much Can We REALLY Know About the Afterlife?

Richard N. Boyd, Ph.D.

**Former Science Director, National Ignition Facility at
Lawrence Livermore National Lab**

A Physicist's Perspective

Do you doubt the existence of an afterlife?

Richard will take a 'scientific approach', as he explores data claiming to prove that an afterlife exists. Could the most recent data and claims open the possibility that an afterlife, a supra-sensory existence, is linked to our apparently limited sensory existence? This study will include reincarnation data, near death experiences, past-life regressions, and information from mediums – **always with a physicist's perspective.**

Comments and Questions from the audience are encouraged!
